Sir:

As a full and complete response to the Official Office Action dated April 29, 2002, please consider the following remarks.

Claims 1 - 4 are being submitted for reconsideration.

Claims 1-4 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Applicant's admitted prior art (AAPA) in view of Saito (EP/0,732,107). In making this rejection, the Examiner asserts that the combination of these references teaches each and every element of the claimed invention. The Examiner also asserts that it would be obvious to one of ordinary skill in the art to combine these two references.

Claim 1 is directed to a mount structure for thermal fuse on a circuit board comprising certain particular structure. The circuit board has one surface where a
